DECLARATION OF COMPLIANCE
for materials made from plastic intended to come into repeated contact with food
Nr. PP_20240412

Declaration no. PP_20240412 object is polypropylene (PP) products, single layer – transparent and colored.

Purpose of the object - packaging, storage and transportation of food products.

Polypropylene products are intended to come into contact with dry, aqueous, acidic, alcoholic and fatty or oily food types.

The subject of this declaration is produced from materials not harmful to human health and is in conformity with the legal acts listed below:

- Regulation (EC) 1935/2004. In particular, it is manufactured under good manufacturing practices from materials which are declared suitable for food contact use and is therefore considered to comply with the general safety requirements (art. 3). We also comply with art. 11(5); the provisions on labelling (art. 15) and traceability (art.17).
- Regulation (EC) No 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food.
- Regulation (EC) 10/2011 relating to plastic materials and articles intended to come into contact with foodstuffs and its amendments in their current valid versions.
 - We do not use any substances which restrictions are set out in Annexes I and II of Regulation EU No 10/2011.
- Regulation (EC) 1895/2005 on the restriction of use of certain epoxy derivatives in materials and articles intended to come into contact with food with possible amendments.
- Regulation (EU) 2022/1616 on recycled plastic materials and articles intended to come into contact with foods, and repealing Regulation (EC) No 282/2008.
- Council of Europe Resolution AP (89)1 on the use of colorants in plastics coming into contact with food.
- Comply with Requirements established by EN 12875-1 /-2 – Mechanical dishwashing resistance of utensils - 125 cycles.

PACK KLAIPĖDA
