- FCM of this Declaration of Compliance don't contain substances which are subjected to a restriction in food.
- FCM of this Declaration of Compliance comply with limit for global migration according to the above mentioned legislation:
 - Contact Conditions: 30min/175°C
- Ratio between the sample exposed surface (dm²) and food (Kg) complies with the above mentioned legislation:
 - Ratio surface/volume: 6 dm²/Kg.
- FCM of this Declaration of Compliance can contain substances also approved as food additives, defined "dual use". According to the above mentioned legislation, these substances do not migrate or are contained in marginal quantities so as not to show any effect in case of migration.
- Based on available information, significant presence of NIAS (not intentionally added substances) in term of health risk is reasonably excluded.
- FCM of this Declaration of Compliance:
 - are suitable for oily and fatty foods.
 - are suitable for repeated contact and not suitable for long term storage.
